## **ANB Grand Camp Spending Policy**

Our effectively designed spending policy links ANB Grand Camp's endowment with the mission and long-range strategic plan of our organization. ANB Grand Camp depends on an appropriate, sustainable withdrawal rate from our endowment. Our spending goals are determined by the strategic goals and time horizons of our organization.

The Grand Officers of the ANB Grand Camp shall determine the amount of funds available for annual expenditure from the Sealaska Byron I. Mallott Endowment fund in keeping with the Sealaska management of investment objectives. Gift principal shall not be expended. A prudent portion of the annual earnings and/or accumulated appreciation of said fund, not to exceed 5% of the Grand Camp Endowment, may be expended each year. The objective of the ANB Grand Camp is that fundraising shall continue as a driving force with the purpose of covering/contributing to the annual budget.

A healthy reserve will not only be maintained, but is expected for continual growth and expenditure. The reserve is not expended to cover current expenses; and will be kept in order to continue as a stable organization and or to be applied to the mission of our organization. Reserve accumulation will be restricted until carefully examined of conditions requiring their expenditure.

This spending policy shall be reviewed annually by the Executives and Grand Officers of the Grand Camp to ensure that earnings and accumulated appreciation are adequate to maintain the goals of ANB Grand Camp Mission Statement. The Executives and Grand Officers may adjust the spending allowance as it deems appropriate in order to fulfill reported purposes. Expenditure beyond the annual budget will be considered only after a thorough and detailed report presentation and only after a full vote of the Executives and Grand Officers.
